

CLIENT WORKSPACE

Client features

Everything in the live client sidebar after sign-in.

Dashboard

After sign-in you land here. Badges show what needs attention for your organisation only.

- New reports, fault reports, tickets, messages, and invoices with live counts
- Tap a tile to open that module
- Invoices badge clears after you open Invoices

Client dashboard with Reports and Invoices quick links

Messages

Threaded inbox to talk with your service provider (ServiceLink) or colleagues in your organisation.

- Tabs: All, Received, Sent, and Deleted
- Start a conversation with one recipient, then send text and attachments
- Cc colleagues on provider threads or report-linked chats
- Open a chat from a fault or new report (“message about this report”) — replies stay linked to that record

Client messages inbox with conversation list and compose form

Tickets

Raise and track service requests for your sites. Support moves each ticket through status; you reply when it's your turn.

- Create from Ticket New: site, service, subject, message, optional Urgent, and required media
- Edit, delete, or restore your own tickets

Roof and Gutter cleaning required

Total 1 items<1>10 / page

Client tickets list with New, In progress, and Completed views

Ticket New

Newly submitted requests waiting for support. This is where clients create a ticket.

Ticket In progress

Support is working the ticket. Status shows Waiting for customer or Waiting for support.

Ticket Completed

Closed tickets with full history. No further replies.

My personnel

Your organisation's contact list — people who can receive fault work when you delegate.

- Add, edit, or remove contacts (name, email, phone, type such as Tradesperson or Electrician)
- Used when delegating a fault by email with a secure link

Invoices

View and download invoices published for your organisation. Clients do not upload invoices — admins publish them.

- Search and filter by date
- Open details and download attachments
- Soft-delete or restore from the Deleted tab

The screenshot displays the 'Invoices' section of the ServiceLink application. On the left is a green sidebar with navigation links: Dashboard, Messages, Tickets (with a dropdown), Ticket Inprogress, Ticket Completed, Reports, and Invoices (highlighted). The main content area is titled 'Invoices' and shows a search bar with 'Search by name' and 'Date range' filters, and a 'Search' button. Below the search bar are tabs for 'Invoices' and 'Deleted (0)'. A table lists invoices with columns: Date, Sender, Title, Files, and Action. One invoice is shown: 01/09/2026 09:15, Service360, September 2026 Facilities Services — Bayside Council, with a file 'INV-2026-09-Bayside.pdf' and a 'Download' action. An 'Invoice details' modal is open, showing fields for Date (Stendre), Title (New), Sender (PDF), and Notes (Monthly reactive and scheduled maintenance charges.). It also shows the file 'INV-2026-09-Bayside.pdf'. At the bottom right, it says 'Total 1 items' and '10 / page'.

Client invoices list with sample invoice PDF and download actions

Reports

All site reporting for your portfolio — completed work, faults you manage, audits, and adhoc / reactive jobs.

New reports

History of template-based site reports created by staff or admin (clients cannot create here). Filter by date or site, open a report, download PDF, message about it, and track read status. Sample: Roof and Gutter cleaning report at Tonbridge Reserve.
